We published a paper entitled “MiR-488 suppresses cell proliferation and invasion by targeting ADAM9 and lncRNA HULC in hepatocellular carcinoma” on October 15, 2017 (<http://www.ajcr.us/files/ajcr0057329>). We feel really sorry to tell you that we want to withdraw the

paper. Because we found the method of statistical analysis was mistaken. We used the t-test analysis where the one-way analysis of variance should be used. For the sake of scientific rigor, we feel really sorry to tell you that we want to withdraw this paper.

We really appreciate what you have done for us.
