Received January 10, 2021; Accepted January 20, 2021; Epub April 15, 2021; Published April 30, 2021

In this paper, a mistake has been found that in the published version of **Figure 2D** for the age-adjusted incidence of SC by grade was inadvertently presented with same image for the age-adjusted incidence by stage during figure assembly. We have accordingly corrected and replaced **Figure 2D** in corrected **Figure 2**. The figure legend is correct as published and is also shown for reference below. The error has no bearings on the interpretation of the results, nor do they influence the conclusions of the work.
